

John White, M.Arch., BAA
IFAIR Graduate Research Assistant
Ph.D. Student in LLSS Education

**The Institute for American
Indian Research presents**
**Navajo cultural-related mathe-
matics, Translanguaging, and
Navajo Ethnomathematics**
Presented by
John White with Dr. Jie Li

In this presentation, Mr. White (IFAIR Research Assistant) will discuss his research on the learning patterns of bilingual Diné students in mathematics. He will utilize a culturally-relevant mathematics curriculum that includes Translanguaging and Diné culture-based ethnomathematics. In addition, Dr. Jie Li will provide insights on the concept of translanguaging.

Jie Li, Ph.D.
Parttime Faculty
Language Culture & Literature
